

Department of Defense has directed that the services reduce accidents 50% by FY 05. This report provides management information to support that initiative. The report includes a comparison between current Army accident experience (01 October through 02 May) compared to the same period for FY 02, the base year. It includes cumulative statistical information for various types of Army mishap categories beginning on 01 October through 02 May of each fiscal year referenced below. These categories include total Army Class A accidents, accidental Army military fatalities, Class A accident rates, and POV Class A accident numbers and rates.
